DUBLIN DELIBERATIONS.

SETTING THE MACHINERY OF THE COERCION ACT IN MOTION.

Curiosity Felt in England and Anxiety in Ireland Over the Ontcome of the Couference-Mr. Carnegie and Mr. Biaine in the Highlands of Scotland.

LONDON, July 25.—Great curiosity and considerable anxiety is manifested over the outcome of the deliberations in Dublin on the question of setting the machinery of the coercion act in motion. The curlosity is confined to England and the anxiety felt in Ireland, but ln neither is the belief as strong as it was a few weeks ago that the iaw wili be enforced as rigorousiy as the Tories would like to have done.

Of the conferees the lord lleutenant is an uncompromising Tory, Mr. Balfour was of the same stripe until the recent parlia-mentary elections forced the government to modify its policy toward Ireland, Lord Ashbourne is inclined to give the tenants a chance for their lives and Gen. Builer, who went to Ireland with the reputation, well earned, of a martinet, has shown himself even more disposed to act with fairness and justice toward the Irlsh tenantry than his predecessor in office, Sir Robert Hamilton. whose resignation was demanded because he was favorably be disposed toward Mr. Gladstone's Home Rule policy. The Marquis of Londonderry, as viceroy of Irsiand, will undoubtedly demand unrestricted exercise of the law, framed as it was for enforcement in the country for whose government he is responsible, and in the circumstances his demand would seem to be in no way unreasonable; but the political considerations now to be taken into account will make the government chary about giving him the power in the execution of the law to which he is entitled.

In advising strict enforcement of the law. should he do so, the viceroy would be op-posed by the other three parties to the con-ference upon entirely dissimilar grounds. Mr. Balfour would oppose the suggestion because of the goverdment's peculiar position, which necessitates very liberal allowances to the changed state of public opinion on the part of the Conservative party if they would retain office. Lord Ashbourne would argue against it from the point of view of a mau who has never been among those who were classed as Ireiand's bitterest enemies, and has no desire at this late day to be placed in that category, although there is probably no more sentimental reason for his opposition, but Gen. Builer would contend against the proposal from motives of justice.

Holding, as he does, an exaited life position in the army, he is entirely removed from a position where he could be influenced by considerations of political preferment, and during the time that he has been in Ireland he has had opportunities to observe the true relations between landlord and tenant that few men have ever had, or have taken advantage of, if they did have. He doesn't need that anybody should tell him that ninetenths of the so-cailed outrages committed in Ireland within the last year are directly traceable to the rapacity, injustice and even brutality of the landlord, and aithough he has had to deal to extensively with viaiators of the law, he knows the provocation the offenders have had, and realizes the danger of glving full force to a law which further increases the power of the landlord, while it reduces the rights and privilages of the tenant.

In view of this variety of opinion among the rulers of Ireland it is reasonably safe to predict that an extremely moderate applica-tion of the coercio law will be decided upon and it is safe to say that the magistrates and county officials summoned to Dublin to report the condition of their respective localities and receive instructions will experience no little surprise at the character of their orders if they have cherished the idea of paying off old scores through the enforcement of the crimes act to the letter. 4

Mr. Carnegie Interviewed. BRIDGE OF EARN, Scotland, July 25. - A reporter called at Mr. Carnegie's residence today for the purpose of interviewing Mr. Blaine, He was met by Mr. Carnegie, who in answer to a question as to Mr. Bialne's plans said: "Of course we don't know definitely, but he and his family are to make a little excursion of three days to Land of Burns and the Tresachs. Mr. Blaiue, you understand, comes back here after doing the Burns country. In the course of the next four months we are to have a four-in-hand drag tour around Aberdeenshire highlands. Myself and Mrs. Carnegle are determined to purchase a summer house in Scotland, and we are now, considering several offers. You know I am going to address the Glasgow Liberal association September 13, on American home rule. About the same time we go to Sterling, where several national statues are to be unveiled. Oue of them, of Walter Scott, has been presented by my wife. I shall have a number of home rulers down here when the British parlia ment rises. Among our American visitors there will be Henry Phipps, my principal partner, and his wife, Chauncey M. Depew and Mrs. Depew, and H. C. Frick, head of the coke syndicates."

.. Germany and Austria. BERLIN, July 25.- Emperor William has been quietly sojourning at Gastein, making the Bodeschloss hotel his headquarters. In that hotel to-morrow morning he will meet the Emperor Francis Joseph, of Austria, when the policy to be adopted to prevent the election of Prince Ferdinand as prince of Bulgaria, will be determined upon. The present temper of Germany is against the election of a Coburger. A. T. STEWART'S ESTATE.

Another Suit Agaist Judge Hilton to Set Aside Mrs. Stewarts Transfer.

NEW YORK, July 26.—The litigation around the estate of Alexander T. Stewart appears to be interminable. The last published important action begun was that of Prescott Hali Butier, who, about the middle of February last, filed notice of pendency of action in a sult to set aside what is known as the trust clause in the will of Mrs. Cornelia M. Stewart. Mr. Butler's great aim was to reduce ex-Judge . Henry Hilton's influence and power as a trustee under the document to as near nothing as possible.

Mr. Butler's mother-in-law, Mrs. J. Lawrence Smith, has now begun another suit against Mr. Hilton. The purpose of this is to have an accounting and to set aside the transfer of the dry goods business made by Mrs. Stewart in 1877. A. T. Stewart died In April of that year. The present action differs in important particulars from the sult instituted by Mr. Butler. In his action he devoted a large part of his compiaint to ailegations of undue influence exerted by Mr. Hilton upon the mind of Mrs. Stewart. This feature does not appear in the present compiaint, which, without this, however, is

stiil a formidable document. Mrs. Sinlth recites the well known facts relative to the transfer, and makes the assertion that it was unlawfuily made, against the lawful luterests of the rightful helrs, and not in accordance with the intention of Mr. Stewart as declared in his will. The sum of \$1,000,000, for which provision was made, was intended, it is asserted, as a full and ampie discharge of all obligations of the estate to Judge Hilton for conducting or closing out the business. Among the property to which attention is called as having passed improperly to Mr. Hilton's hands are the buildings at Broadway and Chambers streets, and the large retail business at Tenth street. The transfer of the property is held to have been made without authority, and In a manner demanding an investigation and an accounting.

WHEAT STATISTICS.

Bradstreet's Comparisons of the Present

With Last Year's Crops. NEW YORK, July 25 .- In the July 23 issue of Bradstreet's is presented the results of a special investigation into the quantity of old wheat carried over on July 1, 1887, as compared with the like date last year. That the totals are exact to the bushel is, of course, out of the question. That they are approximately accurate is confidently believed. Over six thousand inquiries have been made, in addition to special reports from grain experts, crop reporters and others. Bradstreet's fluid 21,500,000 bushels of wheat in farmer's hands (strictly), United States and Canada, July I last, against 25,600,000 bushels a year ago, a decline of 7,100,000 bushels, or 25 per cent. But the quantity between farmers' hands and the wheat reported in the official visible supply statement was 11,000,000 July 1, against 7,200,-000 one year ago, an increase of 3,800,000,

over 50 per cent. The grand total of invisible wheat on hand, both coasts, on the 1st lust., was 222,-500,000 bushels, as compared with 35,800,000 July 1, 188%, a decline of 3,300,000, or 9 per cent. The above does not include wheat flour in retailers' hauds or wheat in transit by rail. The latter may increase the totals in each case by 1,000,000 more or less. In conclusion Bradstreet's says it is safe to add that this is the smallest stock of invisible wheat carried over for years, as the general estimate for the year 1887 (July 1) is about 40,000,000 bushels. Adding the officially reported visible supplies of wheat to the above we have about 72,000,000 bushels of wheat (and flour), visible and invisible, ou July 1, 1887, as compared with 69,000,000 bushels oue year ago.

ratching up the Cable War.

NEW YORK, July 25 .- The World says negotiations are going on between Messra, Gould and Mackay for a cessation of the cable war. The hitch is over the Commercial's guarantee, made in 1886, that in case It advanced rates above forty cents a word at any time it would refund to customers the excess of ten or thirteen cents a word over what other companies would have charged. About \$2,500,000 would have to be refunded under this agreement. Mr. Mackay wants Mr. Gould to assume this obligation, and Mr. Gould doesn't want to.

Chicago's Fugitive Aldermen. CHICAGO, July 25 .- A News special from Montreal says: Ex-Alderman Henry L. Sayles and Charles Dempsey are registered at the Leon Springs hotel. Moloney is still at Lachine and Keenan at the Windsor. The latter is in poor health and is being treated for kidney trouble. The Moloneys continue to be quite at home at Lachine and take things remarkably easy. Billy Moloney says that the oid man (referring to Jake Sharp) will usver live out his sentence.

DUN'S WEEKLY REVIEW

REPORTS SHOWING THE PRESENT CONDITION OF BUSINESS.

Business Progressing Well, Crop Prospects Excelient, Iron Production Larger Than Any Previous Period and Money in Abundant Supply-Palinres.

NEW YORK, July 25.-R. G. Dun & Co., in their weekly review of trade, says: With business progressing well throughout the country, crop prospects excellent, iron production larger than at any previous period, and money in abundant supply, Wall street is disturbed because a dream it has been chasing for months suddenly fades away, and Mr. Garrett announces the failure of Mr. Ives to buy the Baltimore & Ohio,

The inclient illustrates the weakness of Wall street as a barometer. For four months the street has been discounting the beneficent results of this expected "settiement," and all sorts of purchases, loaus, commitments and oalculations have been based thereon. But for these the retontion of the Baltimore & Ohio by its old owners would disturb nobody. But now litigation, involving the value of many properties, direct and indirect, had been commenced, and may overcioud with uncertainty for some time, and meanwhile no oue waits to buy a share in a lawsuit.

Wheat at 51 3-4 for No. 2 red winter ln July is lower than it has been before in that month for more than forty years, and close to the lowest price in that period for any month. This is the direct result of a speculation which drew many million bushels from farmers' hands, where cost of carrying was nothing, into the hands of dealers who are anxious to unload before the new wheat

The twenty miliion bushels in a few elevators are heavier thau fifty miliion bushels would be in farmers' bins. Small purchases from farmers for some time to come are probable, and the consequent delay in a demand for money to use in crop-moving may possibly prove helpful.

Prices generally are low, in spite of many speculations. As evidence of the absorption of lioating capital in fixed forms, and its effects, it may be stated that the same quantities of articles, representing nine-tenths of the aggregate consumption of the country, which could have been bought a year ago for \$100, would now cost only about \$100.30, and they were not 4 per cent. higher in Jannary last. So small a change in prices, after an expansion of \$65,000,000 during the year in circulation, is surprising.

Cotton is tending downward, with iiquidatlon following several important failures, but goods are comparatively scarce and

prices well maintained. Woolens are as usual unsatisfactory, foreigu competitiou at low prices combining with a slack demand for goods to disconrago producers. But some kinds of iron and steel look stronger, though the market for stell rails seems less firm. A sale of 25,000 PROVIDENCE, R. I., July 25.—Searches tons Besseiner iron at above \$20 is reported, and seizures under the prohibitory law quotations. Reports from all parts of the reported good or fair at all points save two. The crop prospects are also pronounced they please. more favorable, though the extent of damage done by the drouth and insects cannot state act as was expected results in disappolutment to some iocalities; but the v olume of exchanges, and the returns of railroad earnings, show that business is, on the whole, larger than a year ago.

Anxlety about the supply of money for the fall revives discussion of treasury operations, but Indications are that no purchase of bonds will be made if it can be avolded. than It has paid out during the past week-\$800,000 gold, \$600,0000 silver and \$500,000 against it. legal tender-but large disbursements are expected about August 1. Exports improve, for three weeks having exceeded last year's by 6 per- cent., against the increase of 15.6 per cent. In imports. Foreign exchange tends upward, however, and some sales of securities on foreign account are reported. speculative markets.

FRIGHTFUL DEATH.

A Two-Year-Old Chicago Boy Dies of Hydrophobia.

CHICAGO, July 25. - Arthur Mueller, aged two years, dled yesterday of hydrophobia. Five weeks ago last Friday the family were at a garden, and the boy was playing outside, when a small black dog rushed up to the little fellow, biting him on the third finger of his left hand and scratching him slightly on the cheek. The father was called to the child by his cries, and was himself bitten on the thumb by the dog. Mr. Mueller then shot the animal and subsequently went into an adjoining drug store to have the wounds of himself and child dressed.

For some unknown reason the wound of Mr. Mueiler was cauterized, but that of his son was not, the child's wounds being only treated with a carbolic saive. As the wounds of the child healed rapidly no further attention was paid to the matter, and when he was taken sick last Wednesday evening no one thought of the dog bite of some weeks ago as being the cause of his illness. On Thursday morning the child was so ill that a doctor was called, and on first examination attributed the illness to overheating. The same evoning the boy was attacked with the well known symptoms of hydrophobia, which lasted thronghout the night, and ou yesterday morning when the doctor called again it was seen there was little hope of the child's recovery. He imgered along, having periodical convulsions until the afternoon, when he died in great agony.

WESTERN PACIFIC AFFAIRS.

A Representative Conference to Be Held in Washington.

CHICAGO, July 25 .- A local paper says: Sir John B. Thurston, lieutenant governor of the Figi Islands, left for Washington via Pittsburg Thursday night on a very Important mission. While Mr. Thurston was here he kept his business very secret, and left the impress on that his trip was one for pleasure solely. However, it has leaked out his object is to attend an important meeting regarding western Pacitle affairs, in which the United States is taking a friendly

Interest. Exactly what the meeting will be cannot be said, but it is known that the representatives from Great Britain, the United States and Germany are to be present, and it is believed that Samoan affairs will be talked over and some kind of a triple alliance of three governments arranged. Although Samoa possesses a king, the government of the islands is in a most misatisfactory state. the condition being not unlike that of the Sandwich islands, it is possible that the tripartite conference is the result of a desire to establish a more stable form of government, and the representatives may fix upon some plan by which one government cannot obtain an undue advantage of the Samoan

THE newspaper that is independent on party questions is the only one to be relied upou.

The above appeared in the Louisville Commercial. The Commercial claims to be an "independent" paper. If there is a more unreliable paper in the State than the Commercial we haven't heard of it. It's reliability was thoroughly tested in the Harris-Buckner fight.

"That this country can get along with one Democrat in the White Honse and another Democrat in the Treasury Department is evidenced by the fact," says the Louisville Times, "that since the beginning of the current year \$100,000,000 have been invested in new railroad enterprises, \$400,000,000 in new buildings and \$100,000,000 in mining operations in the South."

We were informed that colored men would canvass for the Republican ticket, but as yet no negro comes forth. The white Republicans don't want the negro face to be seen nor his voice to be

For the fiscal year ending June 30th there were \$2,390,765 paid out by the Pension office at Louisviile. The total number of pensioners on the roll at this office is 10,733. Of these "twenty-eight receive \$72 per month, twenty-nine \$50, thirty \$45, sixty-three \$36, twenty-eight \$20, fourteen \$18, ninety-three \$14, eight hundred and forty-seven \$2, thirty-five \$3, nine hundred and ninety-four \$6, one thousand three hundred and seventynine \$8, one thousand five hundred and thirty-eight \$4 and three hundred and sixty-nine \$10. These are pensions for those who are disabled. All widows, save widows of officers, draw \$12 per month each."

Public Printing.

One of the campaign charges of the Republicans is that the Democrats have been squandering money on the public printing. The Frankfort Capital, in ref-

utation of this charge, says: The present Public Printer entered upon the duties of his office on the fourth day of August, 1854. The books of the Andltor will show a careful and intelligible statement of every dollar paid to him on account of printing and binding. The total amounts paid by the State on account of printing, bluding, paper, electrotyping, etc., for three pears ending August 1, 1887, will not exceed \$89,000, or an average of \$29,666,771% per year, of which sums the Public Printer only receives a total of\$61,614.60 for three years, or an average per year of \$20.538,00. Of this amount the State

receives the benefit of thesales of the Reports of the Court of Appeals, published by the Public Printer, and which will amount to Coffee not less than \$6,000, thus reducing the actual cost to the State of the amounts paid the Public Printer and Binder to a yearly average of not exceeding \$19,000.

Compare with the above figures the the cost for the public printing and bindlng in some other states, as follows:

Pennsylvania, (1884)	151,559.93
Ohio, (1884)	102,272.96
New York, (1886)	94,498.99
Illinois, (1884)	81,221.99
Kansas, (1886)	88,344.24
Michigan (1885)	78.912.49

The cost ln Kentucky-ap average of a about \$19,000 a year for the past three years, -seems trivial compared with the above. And then see what the public printing and binding in this State cost the last three years of Republican rule. Here are the figures as shown by official reports:

The Flippant Young Man.

One day an emissary of the Salvation army handed my friend a card on which were printed words to the effect that the wicked would perish, and added to this statement were a few words of admonition. This flippant young man hastily recailed the giver and said: "See here, you have delivered this to the

wrong address. Let me see your pack." Then, taking a heap of cards f tonished emissary, he selected one which said the good would be rewarded,

"This is the one that was meant for me," he said. "That one about the wicked was meant for my friend. You ought to be more careful how you scatter these cards about," "I am afraid," said the emissary gently, as the pack of cards were returned, "that you

No Poison in Candy, "How about the candy children eat? I remember the seiznre of tous upon tons two

"Yes and that settled it. That candy was colored with poisonous metallic colors, and the ioss was so heavy to the mannfacturers that they gave right up. They not only organized an anti-adulteration society-there are only fifteen or twenty of them in the city that amount to anything-but compelled every outsider to come in and join them and to sign a sworn pledge to make only pure and harmiess candy. It is safe to eat candy in New York nowadays. Once in a great while we catch some cheap little manufacturer on a side street coloring his candy with chromate of lead, but the great mass of candy is harmless sugar. I haven't heard if there has been any failing off in infant mortality on that account, though there ought to be,"-Dr. Cyrus Edson in Herald of Heaith.

Story of the "Fighting Parson." It is said of the late Rev. Dr. Granville Moody, the "fighting parson," that once at Piqua, Ohio, where he was preaching, he made a patriotic remark that rather cut Mr. Frank McKinney, a local Democratic leader, and Mckinney threatened to whip him. "You may get hurt if you try it," replied the minister. But McKinney wasn't afraid and attacked him on the public street. In a twinkling Dr. Moody grappied with him, got his head "in chancery" and pounded him until he begged for mercy, when he let him go, saying: "I told you, Frank, I might hurt you." In the scuffle they tumbled over a boy and broke his ieg. Dr. Moody at once took charge of the youngster, paid the surgeon's bill and more, and sent an account to McKinney for half the expenses, which the latter paid,-New York Tribune.

Pastry as Wholesome as Toast. People wili eat hot buttered toast, and give it to children and invalids, who will tell you that they are quite careful about diet, and never think of touching pastry. The difference between the two articles is as follows: Pastry is flour and water baked, after butter has been rubbed into it. Buttered toast is flour and water baked first and then rubbed thoroughly with butter. The difference between pastry and well buttered toast is apparently the difference between the proverbial tweedledum and tweedledee." I only mention toast as one instance of the articles of diet which people consider comparatively simple and indulge in freely.

TWO CITIES.

United Financially Through a Mail Messenger Service.

True History of a Contract That Has Caused Talk.

The following appeared in the Cinclnnati Telegram, of a recent date:

"A new contract for the messenger mail service of Cincinnati-the conveyance of mails to and from the railroad depots and the river-was entered upon on July 1 to Pearce & Browning, (of Maysville, Ky.,) for three years, at \$14,747 per year. This is a hig increase over the former contract price, and thereby hangs a tale.

"Jniy1, 1884, W. W. Weedon, of Maysville, Ky., entered npon the contract for three years foilowing that date, at the rate of \$8,997 per year. Previous to that time the contractor was a man alman named Everley. Gannon got tired of the work, had some difficulty with the Postration of his contract decided to abandon the

He came to Cincinnati and spent a week or more investigating, and was somehow induced to iower his hid to \$8,997. He claimed that Everiey, Gannon's superintendent, had given him the figures; but this statement has been doubted.

"When he went to Washington he was informed by officers of the Postoffice Department that he would lose \$20,000 on these figures; but he insisted that he knew what he was doing; that he was going into the horse-training business here, and would make up in that anything he might lose, if any, hy the contract. So he was told it his sureties were good he would have the contract.

"Weedon came home and was so strongly beset hy friends, who showed him, mathematically, that he must lose heavily hy such a contract, that heagain went to Washington to try and procue a rclease. But meanwhile inquiry had been made as to the standing of his sureties, Posimaster Whitfield going to Maysville to investigate, then to Washingion to report.

"The Postmaster arrived at Washington, while Weedon was still there, and assured the able; in fact, the names of men who span will be sixty-six feet in length. department that the sureties were perfectly good, and Weedon was held to the contract. STATE TROOPS

Called for by Judge Cole to Aid in Maintaining Order at Morehead During the Next Term of Court.

The next regular term of the Rowan Circuit Court will convene at Morehead on the 2nd day of August.

Quiet has prevailed at that place ever since the "Law and Order" people surrounded the town not long ago and shot down Craig Tolliver and three of his partessary to keep an armed guard constantly on duty in order to preserve the peace. At least that is what is claimed by the day afternoon. The deceased was one of 'Law and Order" people. Within the past week or so several persons from Morehead, among them the Sheriff, Deputy Sheriff, D. B. Logan, leader of the "Law and Order" people, and others, have visited this city. It has been known all along that the object of their visit was to consult with Judge Cole as to the advisability of calling on the Governor to send a company of State troops to Morehead to aid in preserving order at the coming term office Department, and long before the expl- of court. It seems to be the opinion of these visitors that the only way to prevent another outbreak is to have the

In response to these urgent demands, Judge Cole has made a call on the Governor for a company of State guards. The letter containing the call was mailed on the 21st of this month. Judge Cole had received no response from Governor Knott Saturday afternoon. To a representative of the Bulletin the Judge said he was not in the habit of talking much to newspaper men, and he preferred not to express any opinion as to the present state of affairs in Rowan. He had made the call for the troops and the matter now rested with the Governor.

In reference to this matter a special from Flemingsburg says: "Boone Logan, Squire Hogg, Sheriff of Rowan County, were here Thursday to consult the "Law and Order" attorneys in regard to the grand jury soon to be empaneled in the Sheriff by the Commissioners contains five names which are very objectionshould be indicted. Judge Cole informed them that it was too late to change the panel, but when they assembled for inimproper persons, and that no man who was under a cloud and known to be 'waated" would be permitted to serve. A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at the drug stores of J. C. Pecor & Co., and S. P. PORTSMOUTH'S JUBILEE.

A MAGNIFICENT REVIEW OF THE BRITISH NAVY.

The Greatest Marine Spectacle Ever Witnessed-A Number of Prominent Americans View the Scene-The Queen on Board Her Yacht-A Great Success.

PORTSHOUTH, July 25.—Crowds everywhere, people flocking hither and thither, some seeking food, some struggling for vantage points of view, and all with but one general and absorbing thought—the jubilee review, the grandest naval review England ever witnessed. Special trains from London brought the jords of the admiralty, the members of the house of lords and house of commons, ambassadors, the military and naval representatives of kreign powers, and many other distinguished members.

A large number of Americans came down in special trains, including Minister Pheips, Minister McLane of the Paris iegation; Minister Curry, of the Spanish legation; Secretary White and wife, Lieut. Chadwick and wife, Lieut. Buckingham and wife, an attache of the Paris legation, Consul General Waller, Senators Hawley and Frye and Congressman Hopkins. The party was in the highest spirits and was delighted at the number of Americans brought together. Banker Horton and family were aboard a private yacht, Alian Arthur, ex-President Arthur's son, Mrs. Frank Leslie and other Americans were aboard various vessels in retary of the Paris iegation, was on the war also in the harbor.

Portsmouth's harbor presented a brilliant 0:50. Odds 1 to 2. Mutuals paid \$7.80. and animated scene when the invited guests dressed in charming costumes, mostly of 10 to 1 on Al. Reed. white trimmed with the colors. The men, uniforms of the countless officers, military and naval, presented a sight seldom witnessed. Two immense Indian liners were the first to move off with their guests, and water created the most enthusiastic admiration. They were followed by other troop ships from the Portsmouth dock-yard and by scores of steamboats. The steamer Bonnie was filled with Americans,

At Spithead the vast English navy was gathered. The fleets were divided into their cruising squadrons and moved in columns, liners ahead, ships two cables apart, columns three cables apart. The flagship negroes were indicted for intimidating govheaded each division and faced eastward. ernment witnesses in revenue cases, and the There were also formed in columns in division parallel to the other squadrons and arranged in the same manner five coast defense squadrons, each consisting of coast defense ships, gunboats and torpedo boats. Six training ships were moored in single coi- dent, who is a white man and the justice of umn inshore in parallel to the other liners. the island. The testimony showed that sev-The foreign ships of war present were anchored off Browndown.

Never before has the world seen in all its on warrants issued by the president of the history such a fleet gathered together. It ku-klux. represented every class of vessel in the British navy, from the majestic iron-clad to the spiteful torpedo boat. Compared with this review the review of the Crimean fleet by the prince consort and the queen thirty-one years ago sinks into insignificance. Some of the wooden ships used at that were decked out to-day for the occasion, and there, pointing to the still earlier history of the navy. standing as steadily on the choppy sea as she did in her palmy day, rode Nelson's old ship Victory-one of the noteworthy sights of this memorable day.

Every ship or steamboat that passed her gave a round of cheers. The old war vessei had mounted a gun or two and joined in the general salute to the queen. Great praise must be given to Sir Charies Beresford, to whose excellent arrangements both in respect to the attention of the guests and the success of the affair is largely due.

Just before 8 o'clock the royal yacht Aibert and Victoria, with her majesty the queen on board, started from her buoy, and preceded by the Trinity and followed by the royal yachts Osborne and Aibert, and her majesty's ships Enchantress, Hellcon, Euphrates, Crocodile and Matabar. The royal yacht and its convoy passed between the lines in review. As her majesty passed through the endless lines of war ships, each yard arm being manned with brawny tars, deafening cheer after cheer was sent up by the crews.

After the entire tour of the ship: had been made the great cannon on the large ships began to thunder forth the royal salute. As each gun sent its tribute out over the water the vessels bagan to roll and the sea to heave. The vessels drawn up in line extended over four miles, and even this line was added to by the great troop ships laden with spectators. At the close of the review, the visitors

THE WOOL MARKET.

Both the Boston and Philadelphia Reports Show But Little Chauge.

NEW YORK, July 125. - Bradstreet's, in its summary of the wooi market, says that at and killed the engineer. Boston no change has appeared this week, that more frequent inquiries have been made: by manufacturers. Purchases have not increased to any extent, both seliers and buyers pursuing a waiting pollcy. There is a fair demand for medium descriptions, but fine fleeces are neglected and weak. Prices in the general range are unchanged. The sales of the week are reported at 1,870,000 pounds, against 1,580,000 pounds last week, and, and 4,628,000 in the same week last year. The Boston wool market continues dull and easy and in buyers' favor.

The Philadelphia market has continued very quiet. Mills are buying only for urgent wants unless they can secure sharp concessions, which the majority of holders are unwilling to make. Manufacturers are using a good deal of shoddy and cheap foreign wools to iessen the cost of products in competition with foreign goods. This edds to the dullness of the market for home grown wools. Stocks are tight and receipts continue smali, as dealers are unwilling to stock up at ruling rates in the interior. Prices at Boston are the same as last week, except Michigan extra which is 31 to 32 c.

DEMAND FOR CATTLE.

The Rumor That the Texas Trail is to be

Abandoned is Discredited. Sr. Louis, July 25.-Telegrams from Dallas and San Antonio, Tex., discredit the report that the Texas cattle trail is to be abandoned and that 50,000 head of cattle on their vay to Wyoming were yesterday turned back at the Arkansas river. Col. Simpson, who was reported as having agents at the utleged cattle growers' meeting at

Denver, says the company was not represented there and that all the cattle he had ent over the trail this summer are now in Wyoming.

Little says it is probably true that there is little demand for Texas cattle in Wyoming, but that this will not cause heavy loss or probable failures. Maj. Hilliard thought that the report was intended to alarm Texas cattle men. He thought trail cattle were finding slow sales, but there was plenty of grass in Indian Territory and no necessity to turn the herds back. From other quarters is was generally recognized that the oid days of the trail is over and the only salvation is to establish packing houses in Texas.

Kept a Mob at Bay.

ODESSA, Mo., July 35,-A mob of fifty men, headed by the father of a young woman who had given birth to an illegitimate ohild, was brought to a halt to-day by one man, with the words, "Halt! I will shoot the first man who enters my gate. I am here, but to get my body you must come for it. I will not run away from judicial investigation." J. W. Henry, pastor of the Christian church here, a married man with three children, was the speaker. The mob had come to lynch him, but the resolute eider, revolver in hand, made them beat a retreat, Mollie McHalton had accused the slder of being the author of her ruin. He denied it, and as the excitement has been calmed, he will be formaily investigated, at his request, Miss McHalton is quite a prominent society belle. She was a member of Eider Henry's church.
